#### 1. INTRODUCTION

The Broad-Based Economic Empowerment (B-BBEE) Commission commissioned Who Owns Whom (Pty) Ltd (WOW) in August 2016 to conduct a research study on the national state of transformation, collect and analyse real time data by economic sectors on the B-BBEE, with the focus being on B-BBEE certificates issued and affidavits.

The proposed research was to collect and analyse data with regard to the status of B-BBEE certificates issued by verification agencies from April 2014 to March 2016 and in line with the 5 elements of B-BBEE and present the results according the Industry Sectors as defined by Statistics South Africa. The second part of the study was to analyse directorships at industry levels.

#### 2. BEE SCORECARD RESEARCH

#### 2.1. Methodology of BEE Scorecard Research at Sectoral Level

WOW maintains a database of 15,261 South African, African and International companies operating in 280 business sectors as defined by the Standard Industrial Classification Code (SICC) provided by Statistical Services South Africa. For the purpose of this study, research was restricted to companies where rating information was available for the period 1 April 2014 to 31 March 2016. For the purposes of sectoral analysis and to avoid duplication, only latest rating information for a company over the period was used.

Companies were assessed as to whether a BEE Certificate had been made available and the average of black ownership and black female ownership is shown linked to each file type captured.

| File Type               | Companies | Black Ownership Average | Black Female Ownership<br>Average |
|-------------------------|-----------|-------------------------|-----------------------------------|
| Affidavit               | 57        | 34.78                   | 14.19                             |
| BEE Certificate         | 4171      | 32.22                   | 10.56                             |
| BEE Status Letter       | 19        | 20.50                   | 12.22                             |
| BEE Verification Letter | 8         | 16.97                   | 1.71                              |
| Ownership Certificate   | 5         | 80.45                   | 14.94                             |
| No File attached        | 1001      |                         |                                   |
| Total                   | 5261      |                         |                                   |

Elements of the BEE Certificate were captured onto a database. In order to equate the old elements with the new elements, the merged elements were calculated as follows:

- The old Management Control and Employment Equity elements were combined at a ratio of 47.368%: 52.632%
  - for the new element Management Control.
- The old Preferential Procurement and Enterprise Development elements were combined at a ratio of 62.5%: 37.5% to obtain the new element **Enterprise and Supplier Development.**

#### 2.3 Analysis at Industry Level

#### **Percentages Achieved Against Component Targets**

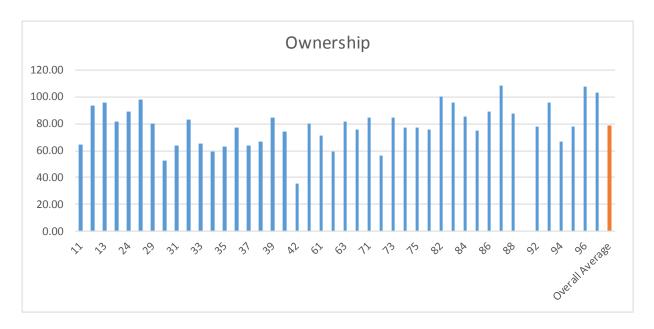

#### **Recognition Levels and Black Ownership**

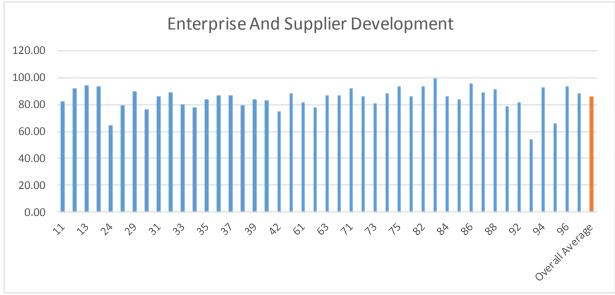

#### **Analysis at Major Division Level**

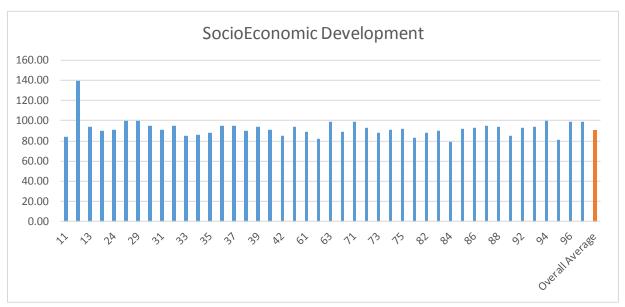

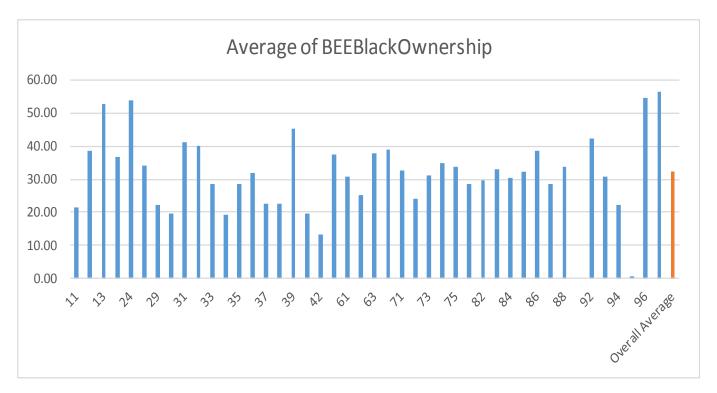

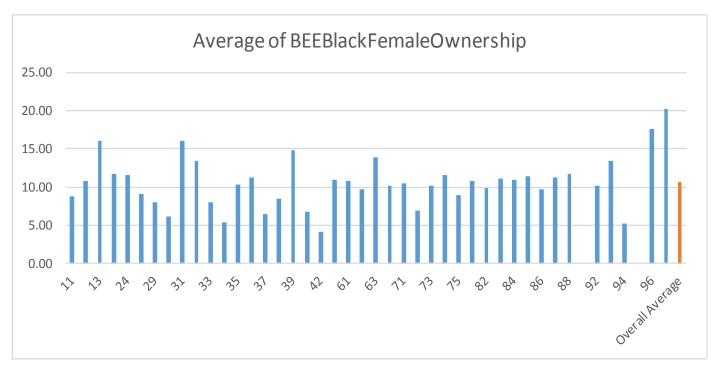

#### 2.4.1. Industry 1 - Agriculture, Hunting, Forestry and Fishing

The agricultural sector comprises the Aquaculture, Forestry and Hunting sub-sectors.

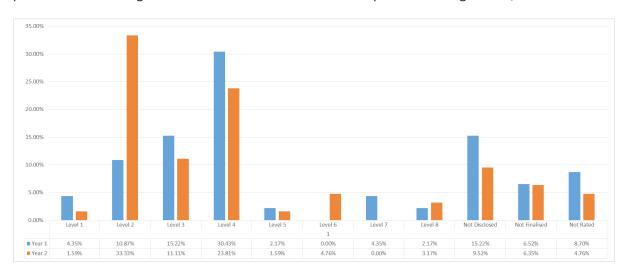

The industry charter which sets an ownership target of 30% was established in 2009 and matures after ten years. During 2015 the Minister confirmed that the charter remains the prevailing legislation for the sector.

The sector has statistically performed well in the Enterprise Development, Social Development and Ownership components of the scorecard but falls short on Management and Skills Development with the Forestry sub-sector scoring the lowest on Management.

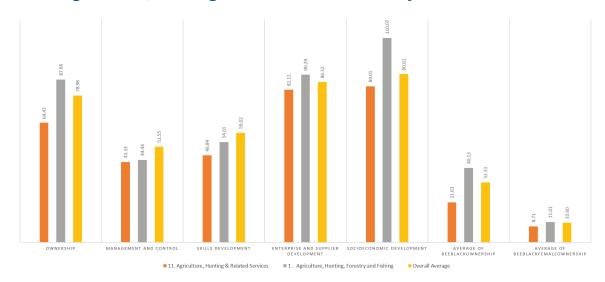

The sector reflects the national statistical trend of high BBEEE recognition levels contrasting with low black and black women ownership scores. BBEEE recognition levels exceed 90% with black ownership largely below 40% and black women ownership below 20%.

A unique feature of the industry is that bonus incentives points are earned for the sale of land by white farmers to black farmers. An original feature of the forestry industry is the creation of thousands of small black women farmers who are assisted in the start-up and tree growing stages of plantation development and are guaranteed a market for the product.

The number of companies scoring Level 5 and above increased from 63.04% to 71.43% year-on-year and over the same period there was a significant increase in the number of companies reaching Level 2, from 10.87% to 33.33%.

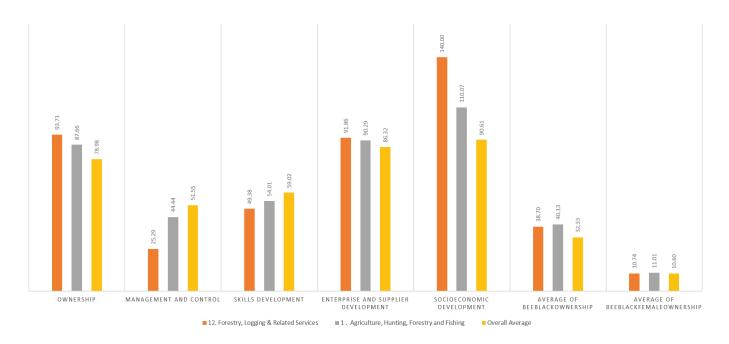

#### 2.4.1 Agriculture, Hunting & Related Services – Major Division 11

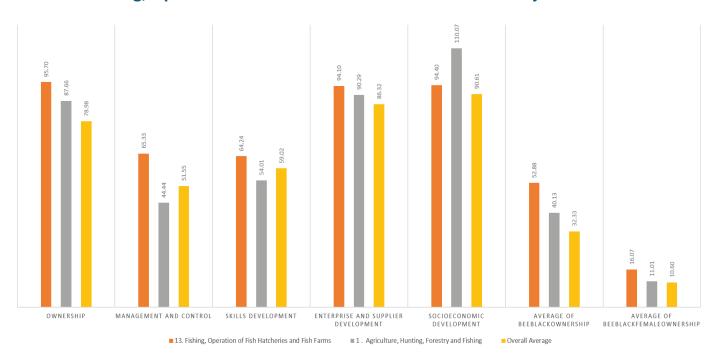

#### 2.4.1.2. Forestry, Logging & Related Services – Major Division 12

#### 2.4.1.3. Fishing, Operation of Fish Hatcheries and Fish Farms – Major Division 13

#### 2.4.2. Industry 2 - Mining and Quarrying

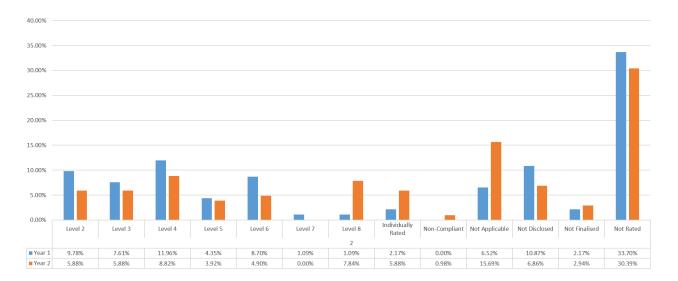

This sector comprises the mining of coal, precious metals, iron and quarrying.

The industry charter, which set an ownership target of 26% by 2014, is currently being re-negotiated by the industry and the state. This discussion includes the 'once empowered, always empowered' principle. The issue and retention of mining licences is dependent on the adherence to regulation which is a motivation for all parties to achieve clarity in this regard.

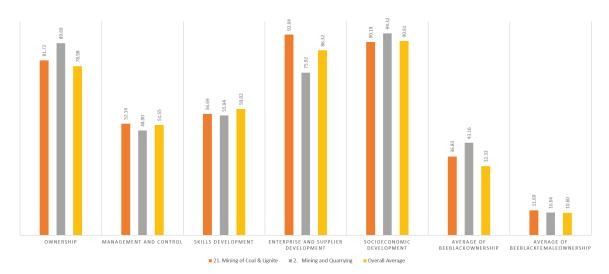

The sector has statistically performed well in the Enterprise Development, Social Development and Ownership components of the scorecard but falls short on Management and Skills Development. The Coal sub-sector scores substantially higher than the average for Enterprise Development.

The sector reflects the national statistical trend of high BBEEE recognition levels contrasting with low black and black women ownership scores. BBEEE recognition levels exceed 70% with black ownership largely below 40% and black women ownership below 20%.

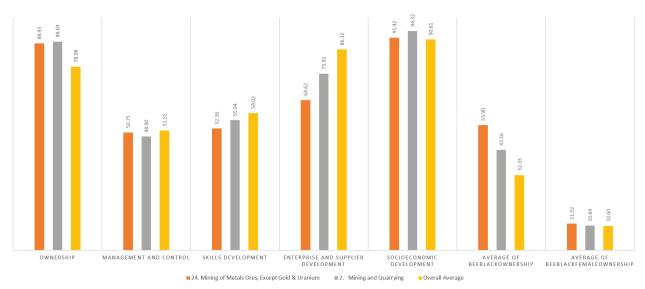

The number of companies scoring Level 5 and above decreased from 34.07% to 30.00% year-on-year.

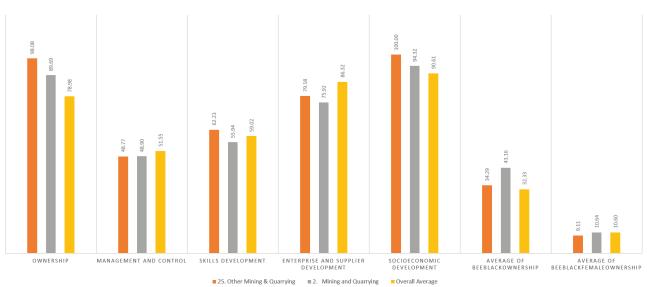

#### 2.4.2.1. Mining of Coal & Lignite – Major Division 21

#### 2.4.2.2. Mining of Metals Ores, Except Gold & Uranium – Major Division 24

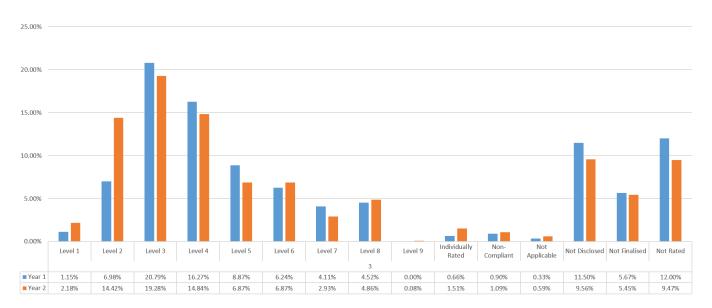

#### 2.4.2.3. Other Mining & Quarrying – Major Division 25

#### 2.4.2.4. Service Activities Incidental to Mining of Minerals – Major Division 29

#### 2.4.3. Industry 3 - Manufacturing

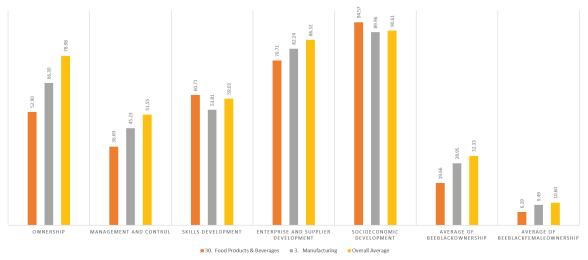

This sector covers a broad range of sectors including the manufacture of food products, white goods and motor vehicles, as well as the printing and publishing sub-sectors.

In general, the manufacturing industry scores well below the national average on all components of the scorecard. There are a few exceptions such as Ownership for the Electrical and Publishing sub-sectors, with the latter also exceeding the national average for Management. Contrary to the trend in other sectors, the manufacturing sector scores below average for BBEEE recognition levels, black ownership and black women ownership levels.

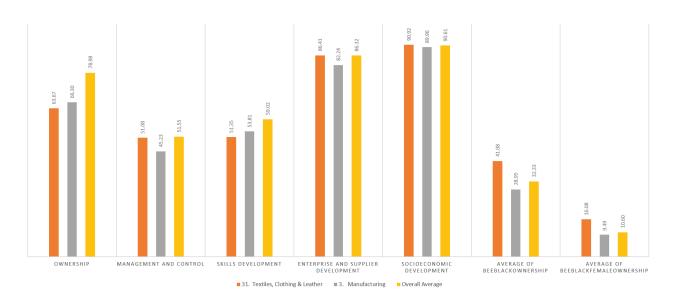

The number of companies scoring Level 5 and above decreased from 57.72% to 54.47% year-on-year.

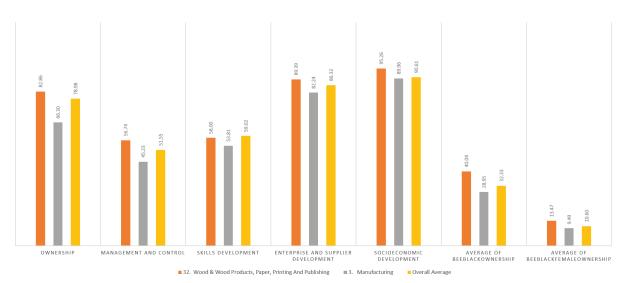

## 2.4.3.1. Manufacture: Food Products & Beverages – Major Division 30

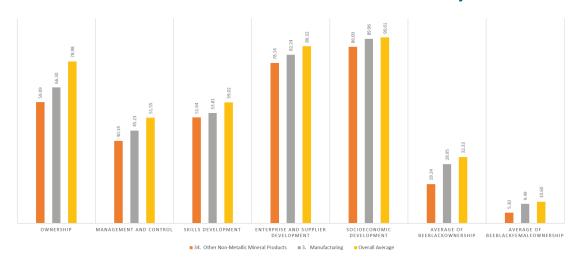

#### 31 Manufacture: Textiles, Clothing & Leather

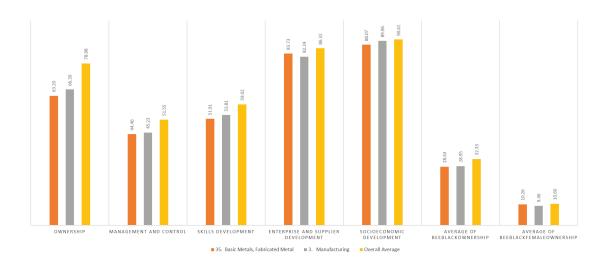

#### 2.4.3.2. Manufacture: Wood & Wood Products, Paper, Printing And Publishing – Major Division 32

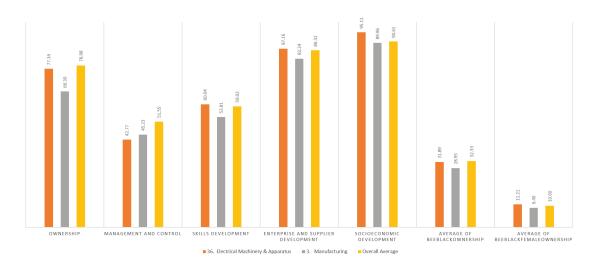

#### 2.4.3.3. Manufacture: Other Non-Metallic Mineral Products – Major Division 34

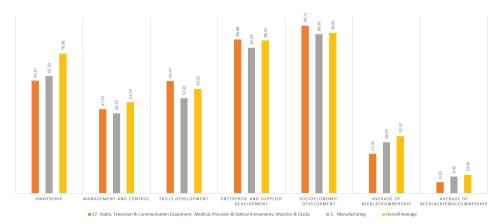

#### 2.4.3.4. Manufacture: Basic Metals, Fabricated Metal – Major Division 35

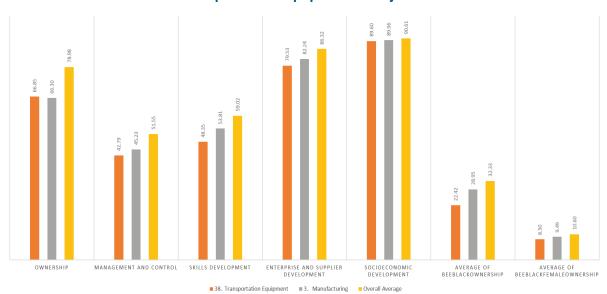

#### 2.4.3.5. Manufacture: Electrical Machinery & Apparatus – Major Division 36

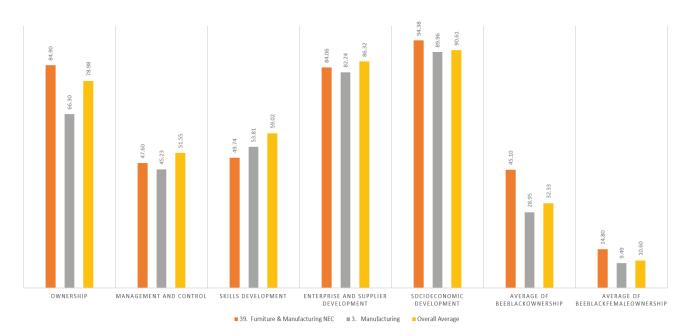

2.4.3.6. Manufacture: Radio, Television & Communication Equipment; Medical, Precision & Optical Instruments; Watches & Clocks – Major Division 37

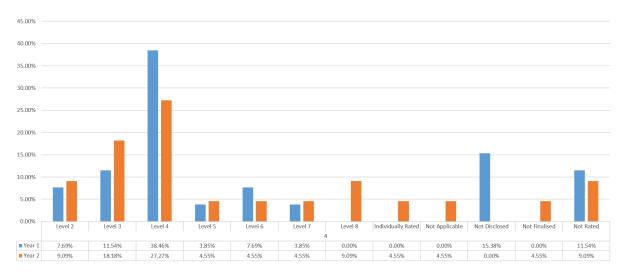

#### 2.4.3.7. Manufacture: Transportation Equipment – Major Division 3

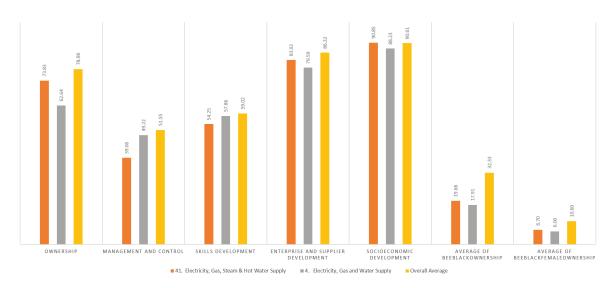

#### 2.4.3.8. Manufacture: Furniture & Manufacturing NEC – Major Division 39

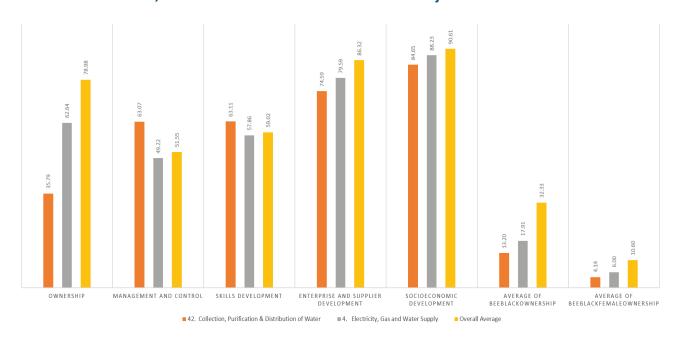

#### 2.4.4. Industry 4 - Electricity, Gas and Water Supply

#### 2.4.4.1. Electricity, Gas, Steam & Hot Water Supply – Major Division 41

#### 2.4.4.2. Collection, Purification & Distribution of Water – Major Division 42

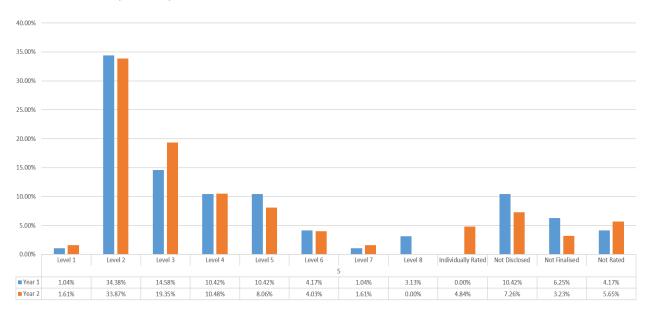

## 2.4.5. Industry 5 - Construction

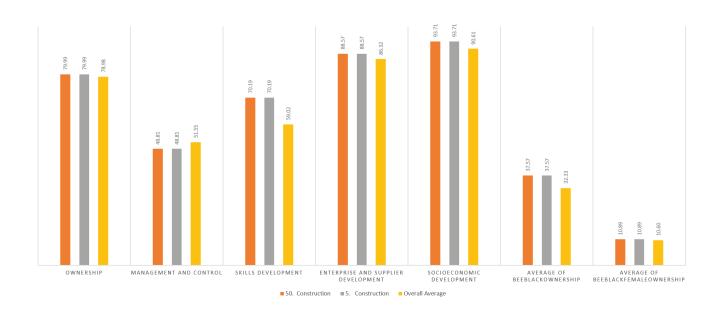

This sector is dependent on state spending on the maintenance and development of infrastructure.

The sector reflects the national statistical trend of high BBEEE recognition levels contrasting with low black and black women ownership scores. BBEEE recognition levels exceed 70% with black ownership largely below 40% and black women ownership below 10%.

The construction sector substantially exceeds the national average for Skills Development and there is a very high level of concentration of companies scoring at Level 2. The number of companies scoring Level 5 and above increased materially from 64.42% to 73.35% year-on-year.

#### 2.4.5.1. Construction – Major Division 50

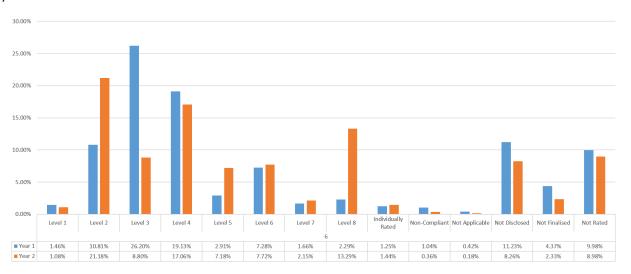

## 2.4.6. Industry 6 - Wholesale and Retail Trade, Repair of Motor Vehicles, Motor Cycles and Personal and Household Goods, Hotels and Restaurants

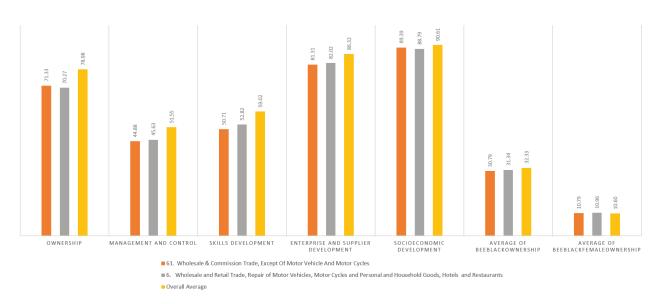

This sector is largely consumer-orientated and therefore not dependent on state spend. There is currently no sector-specific charter.

Scores are generally below the national average with the exception of the Motor Vehicle and Hotel segments, which are significantly above average on all components of the scorecard with the exception of Management.

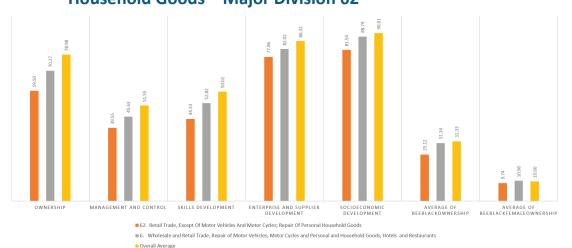

The sector reflects the national statistical trend of high BBEEE recognition levels contrasting with low black and black women ownership scores. The number of companies scoring Level 5 and above decreased from 60.60% to 55.41% year-on-year.

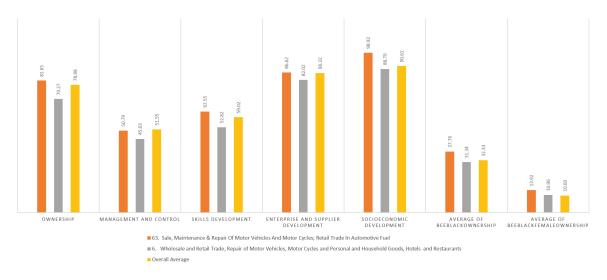

## 2.4.6.1. Wholesale & Commission Trade, Except Of Motor Vehicle And Motor Cycles – Major Division 61

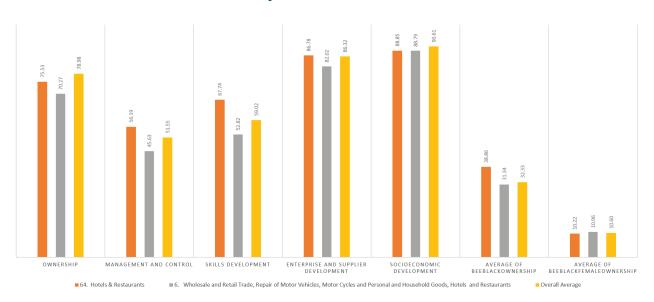

# Retail Trade, Except Of Motor Vehicles And Motor Cycles; Repair Of Personal Household Goods – Major Division 62

# 2.4.6.3. Sale, Maintenance & Repair Of Motor Vehicles And Motor Cycles; Retail Trade In Automotive Fuel – Major Division 63

#### 2.4.6.4. Hotels & Restaurants – Major Division 64

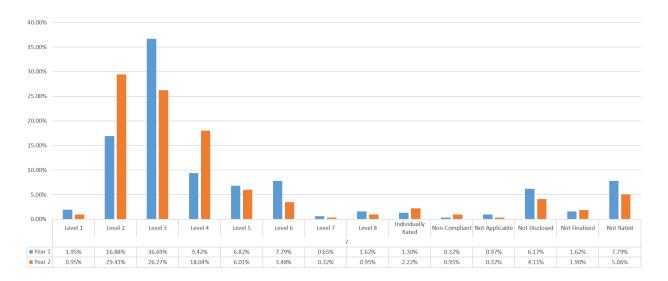

#### 2.4.7. Industry 7 - Transport, Storage and Communication

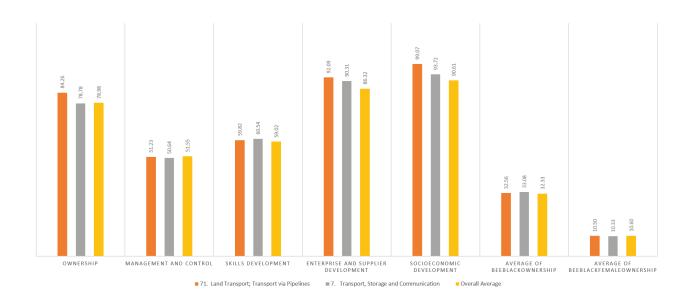

This sector includes the Aviation, Bus and Coach, Logistics, Taxis and Rail sub-sectors.

An ownership target of 35% has been set for the Bus and Coach sub-sector and 15% for new black entrants into the Rail segment. Although the Aviation sector currently comes below the national average in all components of the scorecard, role players have agreed to targets of 10% for black pilots and 30% for black technicians. Travel Agencies exceed the national average in all components except Ownership.

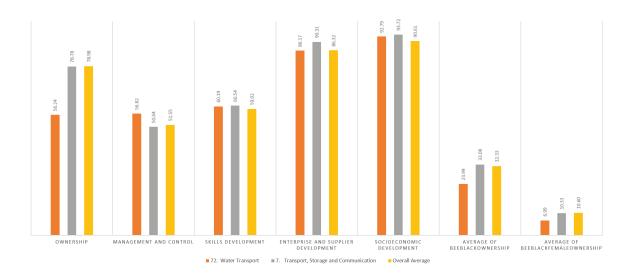

The number of companies scoring Level 5 and above is very high and increased from 71.76% to 80.70% year-on-year.

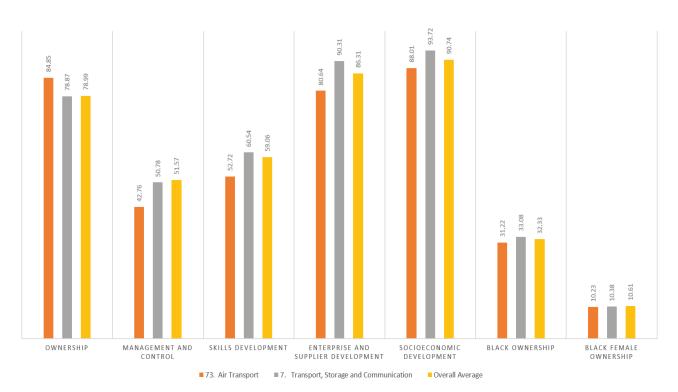

#### 2.4.7.1. Land Transport; Transport via Pipelines – Major Division 71

## 2.4.7.2. Water Transport – Major Division 72

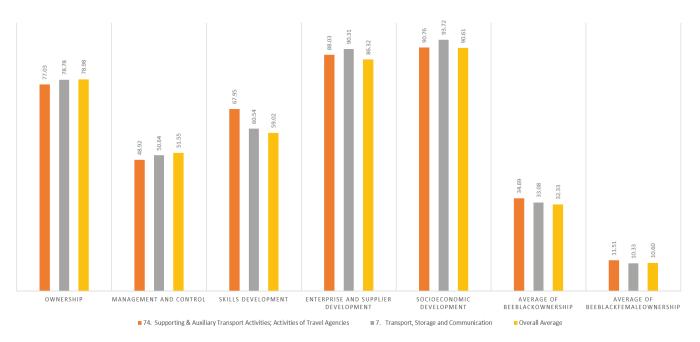

#### 2.4.7.3. Air Transport – Major Division 73

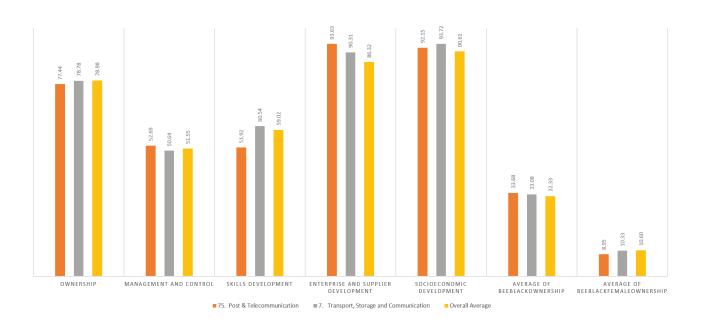

# 2.4.7.4. Supporting & Auxiliary Transport Activities; Activities of Travel Agencies – Major Division 74

#### 2.4.7.5. Post & Telecommunication – Major Division 75

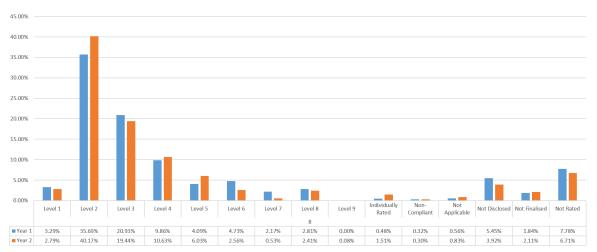

## 2 4 8 Inc

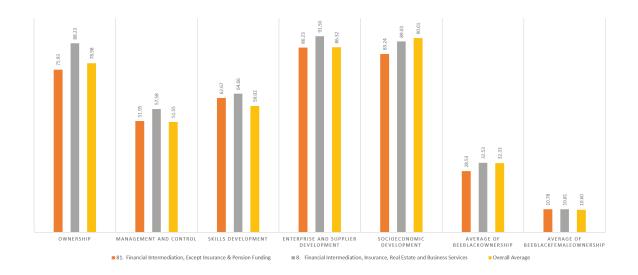

#### 2.4.8. Industry 8 - Financial Intermediation, Insurance, Real Estate and Business Services

The sector code accepts the 'once empowered-always empowered principle' although ownership in the finance sector has been historically problematic due to statutory capital requirements. A unique feature of the finance code is the commitment to invest R122bn in black industrialists, empowerment transactions and SMMEs and to bank marginalised areas.

The Insurance and Pension Funding sectors exceed the national average for all components of the scorecard, while Real Estate exceeds on Ownership but is below average for Management. The ICT charter sets ownership at 30% and awards additional points for Skills Development and Procurement. The number of financial companies scoring Level 5 and above is high and increased 74.23% to 79.25% year-on-year. Overall, 40% of the companies in this sector are at Level 2.

#### 3. DIRECTOR ANALYSIS BY MAJOR DIVISION

#### 3.1. Methodology of Director Research (Sectoral)

WOW maintains a database of 63,234 South African, other African, and offshore companies' directorships i.e. directors' current appointments. In addition to their full board designations and committee memberships, biographical and demographical information has been collected on these directors. This includes, but is not limited to, their full names, dates-of-birth, genders, races, qualifications, and citizenships. This information was collected from various independent sources including CIPC records, credit bureaus, disclosed company reports, company websites, and business/employment-oriented social networking services.

For the purpose of this study, the database was restricted to the companies currently actively-listed on the JSE as at 11 October 2016. From this, there were 3,255 active appointments as at this date.
